# STUDENT LIFE

# FRESHMAN MOVE-IN

# STUDENT ACTIVITIES FAIR

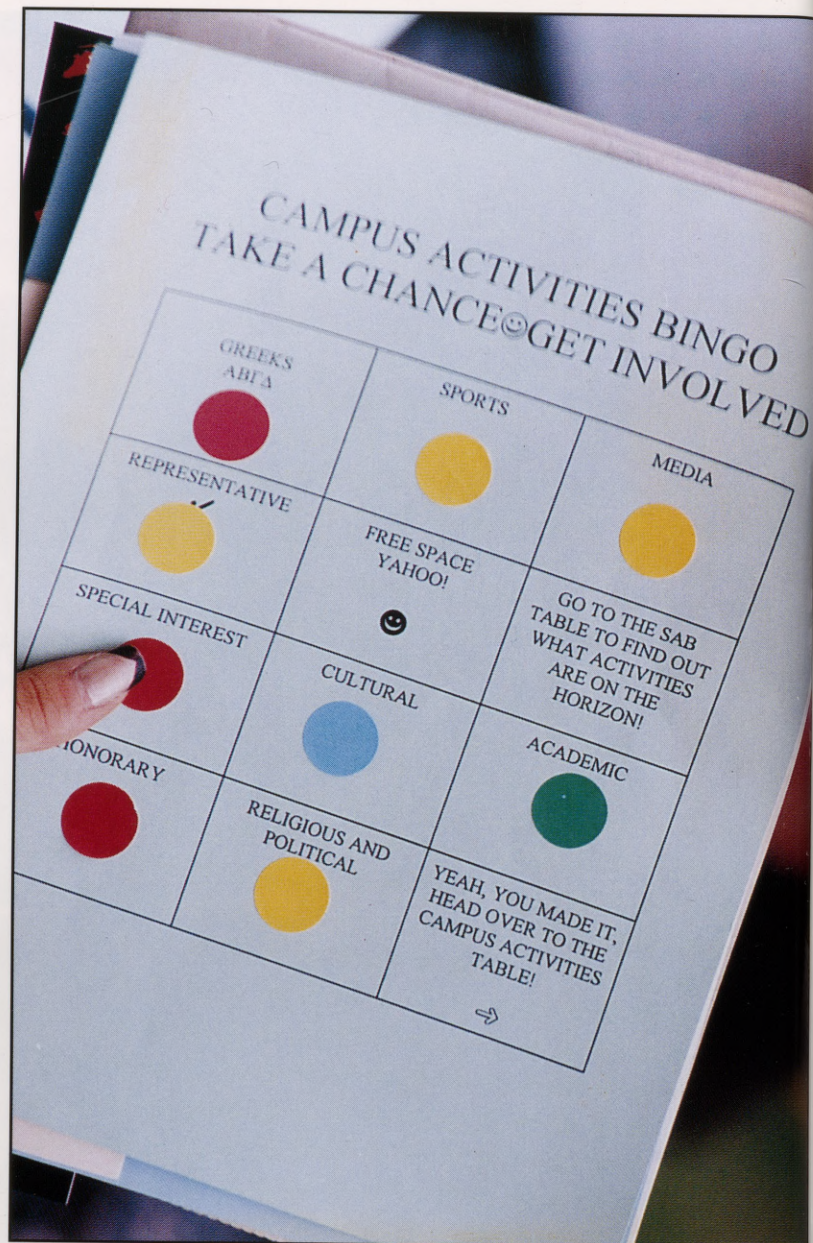

The sun was shining, music was playing and students were roaming the University Green on this beautiful September day.

At first glance, onlookers might have likened the table-filled scene to a sidewalk sale. Upon closer examination, however, students found that the club/organization-sponsored tables were selling neither jewelry nor clothing. Instead, they were selling involvement in the Seton

Hall community.

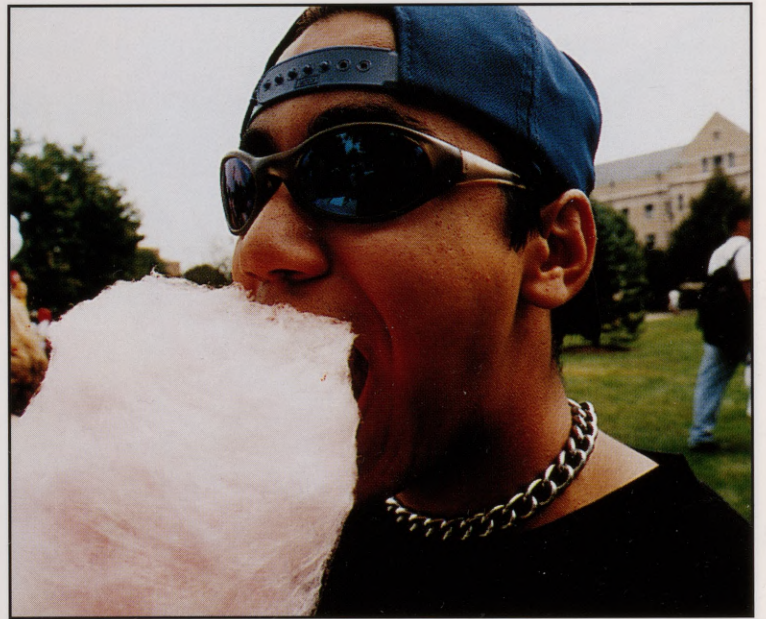

The 1996 Student Activities Fair was the first official opportunity of the year for clubs to recruit new members and for students to research organizations such as the Black Student Union, the Women's Resource Center and Greek life. Many students used the afternoon to become the newest members of the organizations, while others just enjoyed the food, games and fun.

# MASS OF THE HOLY SPIRIT

Every year, the Seton Hall community marks the beginning of the school year by celebrating a special September Mass. The Mass of the Holy Spirit is a

University tradition that reaffirms the grace of God within each of us and binds us together as one family.

This year, Most Reverend Theodore E. McCarrick, Archbishop of Newark, along with Monsignor Robert Sheeran and Very Reverend Thomas R. Peterson, O.P. celebrated the Mass. Students served as altar servers and readers and took part in the procession.

This Mass recognizes that the Holy Spirit plays an integral role in the lives of all those who come to Seton Hall. The Spirit is working in each of us every single day — in the professors, fellow students and co-workers who show an extra measure of kindness that helps us through the day. This is what sets Seton Hall apart from other colleges and universities. We are truly one family, one community.

# UNIVERSITY DAY

Seton Hall celebrated its 12th annual University Day on Saturday, October 5, offering students an excellent opportunity to spend time with family and friends. The event started off with a bang at the Farinella 5K Run, and continued throughout the day with entertainment for each member of the Seton Hall family.

Children could create sand art, explore an inflatable maze, paint pumpkins, or have their own faces painted. Adults could tour the new WSOU Pirate Radio facilities, test their scarecrow-making skills, hurl a few fastballs at the speed pitch booth, or compete in a Macarena contest sponsored by New York radio station Z100 FM.

University faculty and staff also offered diverse lectures. Donald Wimmer, Ph.D., professor of religious studies and

director of SHU's archaeology program, explained the University's Tel Safut archaeological dig in Jordan. Monsignor William Noé Field, University archivist and director of special collections, reviewed Seton Hall's rich history.

After the traditional University Day Mass, the day's festivities culminated with a concert by the Orchestra of St. Peter by the Sea featuring a mix of classical and popular music.

# JANE ELLIOTT

During the feature event of Human Relations Week, world-famous race relations speaker Jane Elliott introduced herself to a crowd of 200 by saying, "Some of you are not going to like what I have to say."

Elliott is known for her controversial "Blue Eyes, Brown Eyes" discrimination exercise in which participants are labeled as inferior or superior depending on the color of their eyes. In 1968, she first tried the exercise in her Riceville, Iowa, third-grade classroom. Students with blue eyes were told they were lazy, worthless, and little was expected of them. The brown-eyed children were told that they were better, smarter and faster than the blue-eyed children. "I was shocked at how quickly my kids became what I told them they were," Elliott said.

After viewing the film documenting

Elliott's experiment, members of the audience completed an interactive questionnaire that shows how people inadvertently behave in a racist manner every day. "Whether you believe it or not, you are all racists," said Elliott. "As a person born, raised and socialized in America, you have been conditioned to be racist."

Elliott emphasized that education truly is the only way to end racism, and that schools can't be reformed without first changing the teachers. She also suggested abolishing school books that ignore the contributions of other races to American society and gave out a list of texts and novels that bring these contributions to light.

In closing, Elliott said: "Differences are valuable" — a sentiment that sums up the message of Human Relations Week at Seton Hall.

# CHARTER DAY

Seton Hall University observed its 15th Annual Charter Day on March 5. This year's celebration was marked by the presence of Associate Justice of the U.S. Supreme Court Antonin Scalia. Justice Scalia, in his speech entitled "The Idea of a Catholic University," urged Catholic universities "not just to think well, but to live well." He went on to explain that "part of the task of the Catholic university must be precisely moral formation."

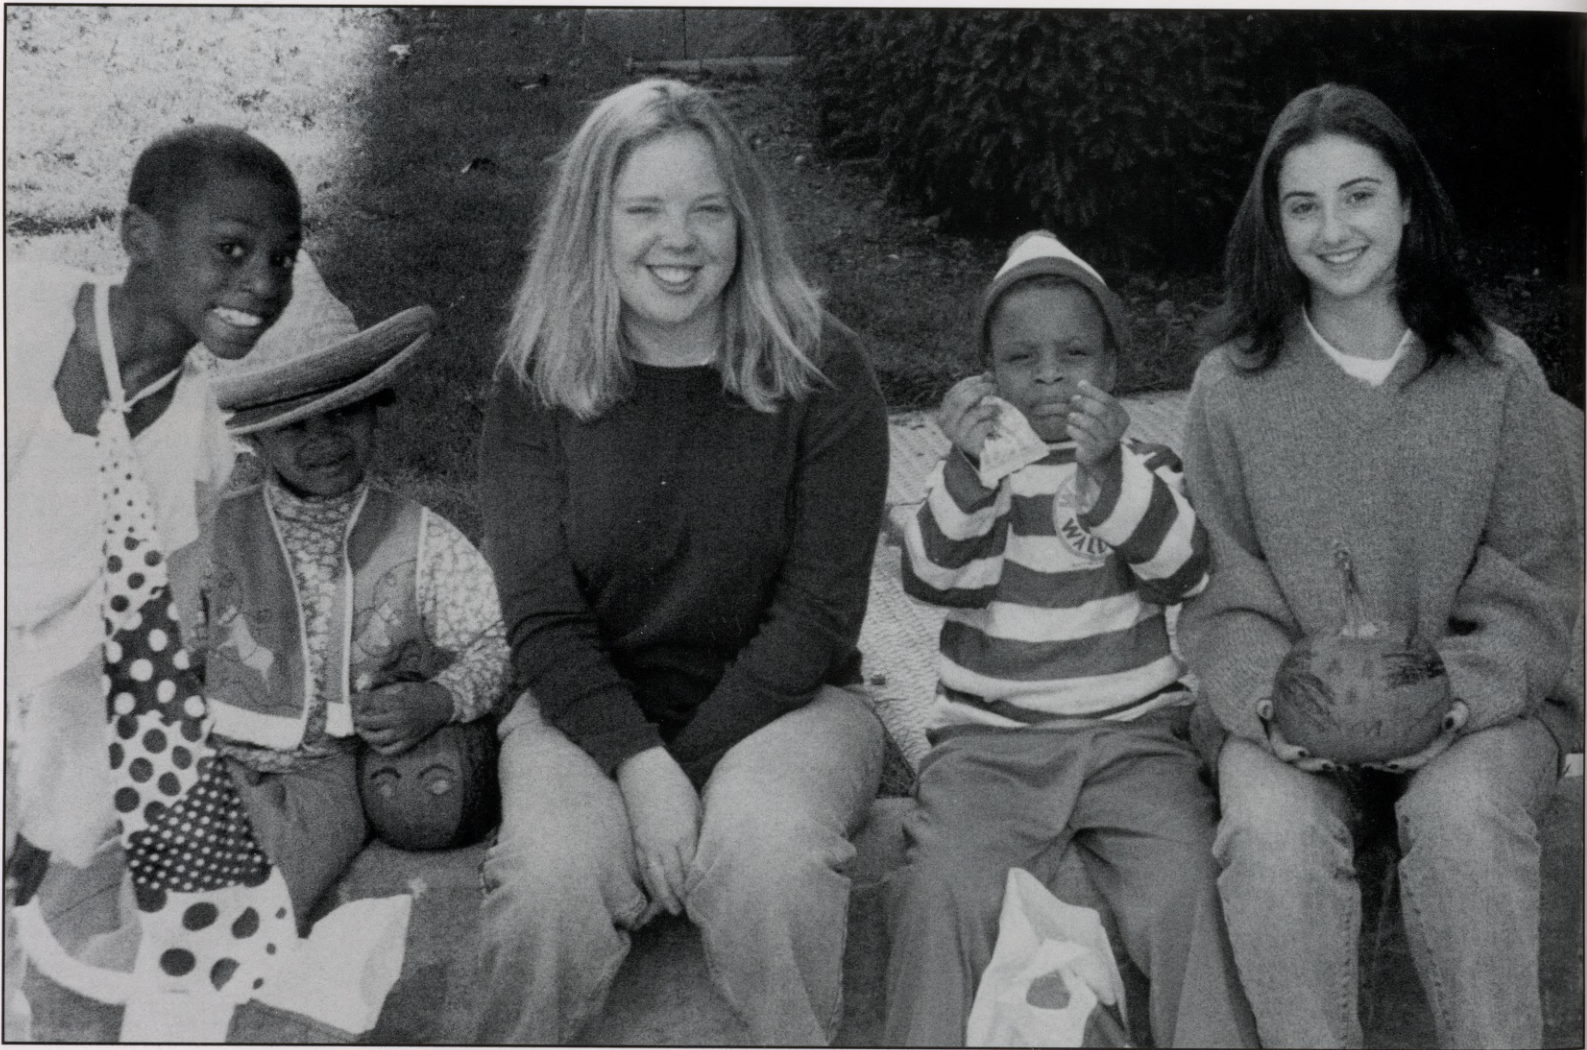

The University community then acknowledged several of its most outstanding members. Art Professor Petra ten-Doesschate Chu, groundskeeper Dennis Raffa and former Provost Bernard W. Scholz received the McQuaid Medal for their service to the University. Senior Sandra Barbosa was awarded the Ramon Ramos Medal for her courage and success in overcoming the challenges posed by cerebral palsy.

# CONVOCAATION

Students, faculty and staff gathered in Walsh Gymnasium on April 16 to deplore an act of racial hatred and ignorance directed toward one of the University's own.

The University-wide meeting was held after the symbol of the Ku Klux Klan and other threats were written on the door of a minority professor's office.

University members

from all ethnic, racial and religious backgrounds came together in this open forum to express disgust at the incident. Many challenged the administration to introduce courses to the core curriculum that would reflect the University's cultural diversity in the hope that knowledge and understanding would prevent future occurrences.

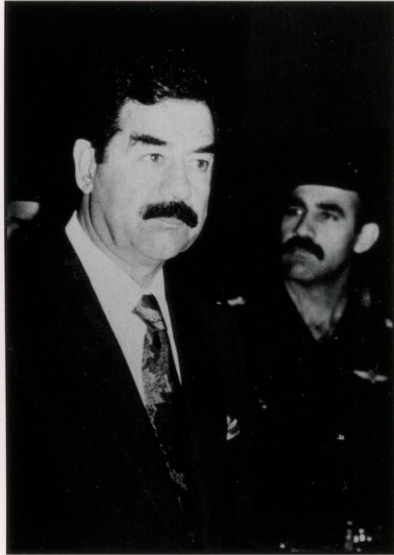

# SETONED OUT

# PEOPLE AND EVENTS

For the first time since the 1993 Gulf War, the American military took action against Iraq and its leader, **Saddam Hussein**. Iraq sent its troops into the Kurdish enclave in northern Iraq and in retaliation, the United States launched air attacks. Since the end of the Gulf War, Hussein has continued to assassinate his political enemies.

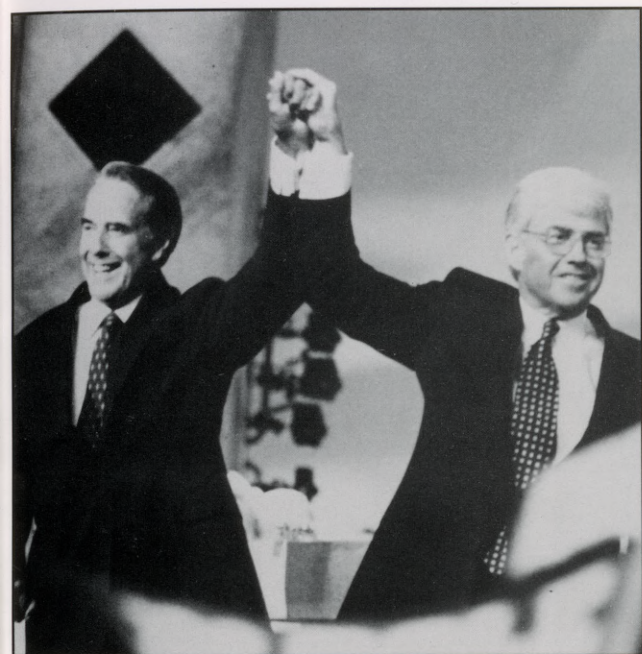

**A deadly explosion** disrupted the **Olympic Games**. Just as the Games were turning Atlanta into a giddy metropolis overflowing with tourists, a pipe bomb packed with nails exploded in the crowded Centennial Olympic Park. One person died instantly and another died of a related heart attack. More than 100 people were injured, and, as the school year opened, nobody was charged with the crime.

**President Bill Clinton** and **Vice President Al Gore** maintained a strong and consistent lead in the polls during their campaign for four more years in the White House. The Democratic team campaigned on a four-more-years platform that featured a strong economy and a lower crime rate. During his first term, Clinton formed a very close partnership with Gore, who served as confidant and adviser.

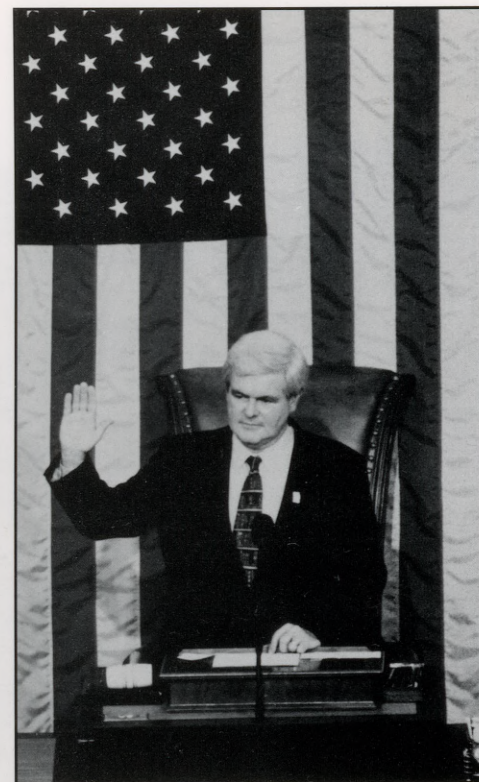

**Bob Dole** retired after 35 years in Congress to fully devote himself to running for president. At the age of 73, the former senator from Kansas would be the oldest person elected to a first term as president. He selected **Jack Kemp**, an active Republican and former cabinet member, as his running mate. Dole and Kemp promised to give President Clinton a "run for his money." They attacked the president's character and ethics while promoting the Republican 15 percent tax cut.

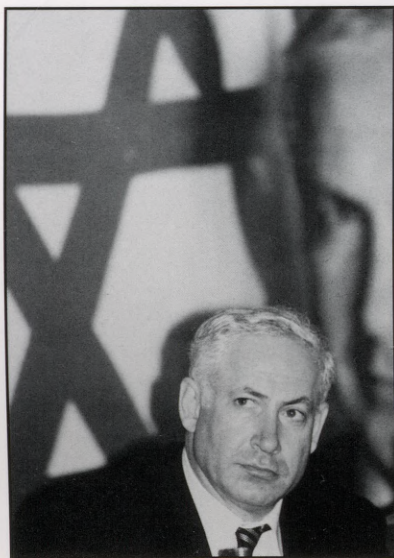

Three years ago **Jewel** was a fledgling singer-songwriter living on carrots and peanut butter sandwiches. In 1997, the 22-year-old performer from Alaska was a smashing success. Her debut album of bittersweet folk songs, "Pieces of You," went platinum. Jewel sings many of the songs on the album in a crystalline voice while playing her acoustic guitar.

For the first time in its history, the House of Representatives voted to reprimand and fine its speaker for bringing discredit on the House. The House Ethics Committee ruled that House Speaker **Newt Gingrich** was involved in using tax-exempt foundation money for his political ends.

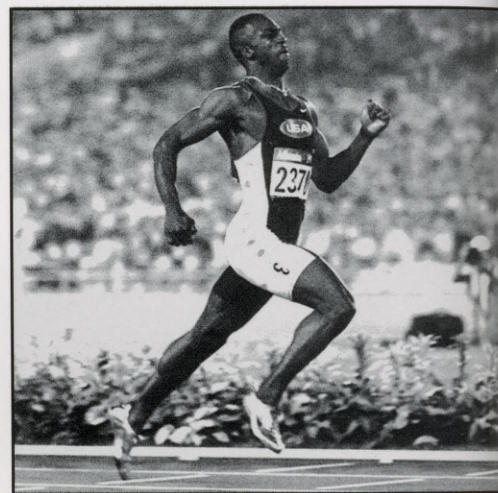

**Benjamin Netanyahu**, the 47-year-old leader of the Likud political party, was elected prime minister of Israel. He declared that his government would honor the existing agreements on peace and security issues and would continue to negotiate toward a final peace agreement in the Middle East.

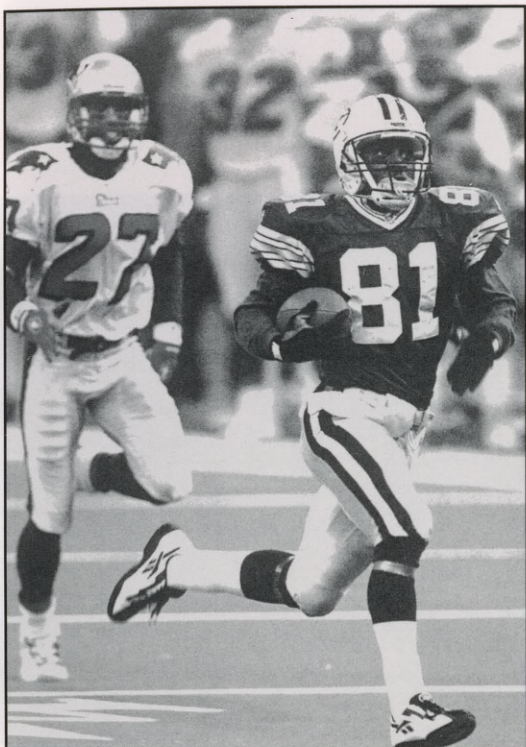

The **stock market surged** to record highs as the school year began. It was a continuation of one of the greatest bull markets in history. The Dow Jones industrial average hit record highs in late September, and closed over 6,000 in October. The spark that kept the markets moving upward was news that suggested that the economy was slowing down, thus keeping interest rates low.

Olympic gold medal winner **Michael Johnson** has what track coaches call speed endurance—the ability to carry top speed. He proved he had endurance-plus when Johnson won an unprecedented double win in the Summer Olympics in Atlanta: both the 200- and 400-meter races.

It was late in the third quarter when **Desmond Howard** of the Green Bay Packers returned his first kick-off for a touchdown as a pro. And it was a whopper—a 99-yard return for the longest kick-off return in Super Bowl history. The Packers went on to beat the New England Patriots 35-21 in **Super Bowl XXXI**.

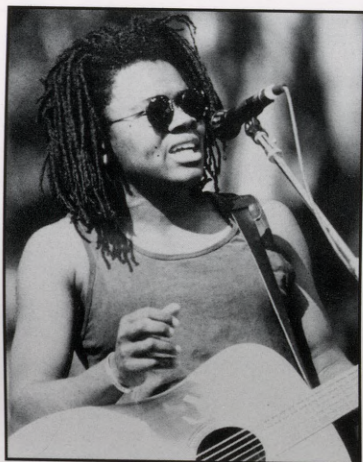

It was just three years ago that **Dave Matthews**, a South African who settled in Virginia as a teenager, first put together a quintet that became one of the biggest draws on the concert circuit. This year, the Dave Matthews Band brought funk into the mainstream, as one critic said. And non-traditional instruments, such as the violin and the sax, expanded the band's sound and universal appeal.

**Boris Yeltsin** was re-elected president of Russia and pledged to continue the reforms he began five years ago. However, the 65-year-old began immediately to show signs of severe heart problems. It was announced that he had at least two heart attacks in the previous two years, and open-heart surgery was considered the only solution to his life-threatening disease.

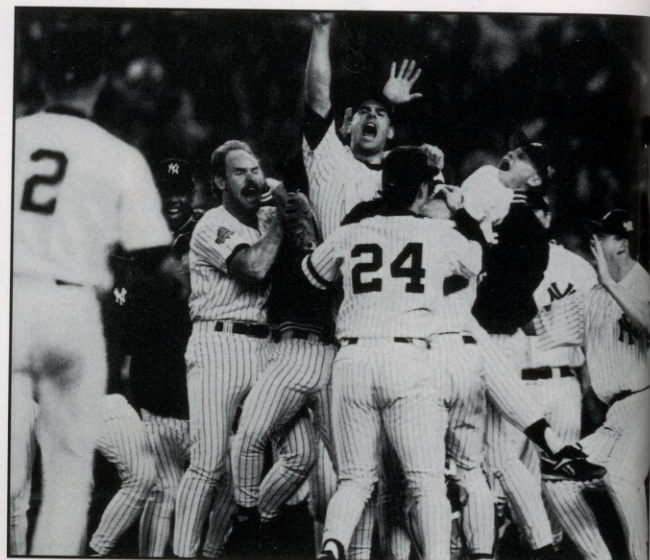

## Tracy Chapman

was back on the charts with her latest album "New Beginning." As one critic wrote: "One thing Tracy Chapman has inevitably gained over the years is polish. This new album is simply and impeccably orchestrated, tightly and urbanely played. The songs are adorned with soft jazz accouterments."

## William Jefferson Clinton

began his second term in January 1997 as the **42nd president** of the United States. He placed his left hand on a family Bible held by his wife, Hillary, and took the 35-word oath of office administered by Chief Justice William H. Rehnquist.

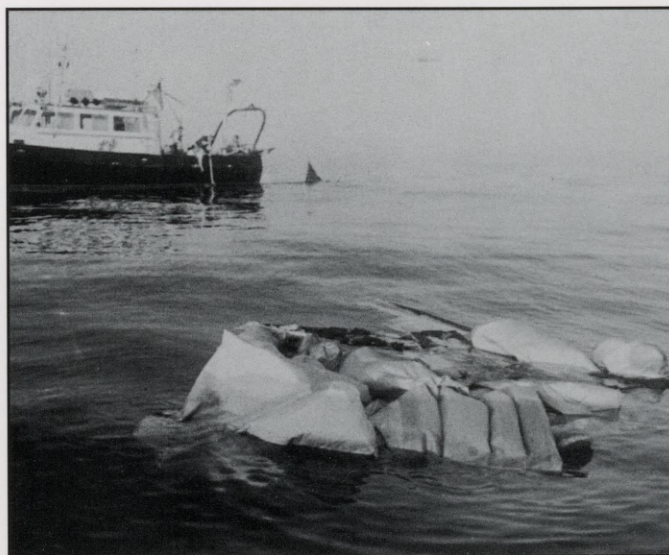

The New York Yankees brought a world championship back to the Bronx by edging out the defending champion Atlanta Braves 3-2 in Game 6 of the **World Series**. This was the first championship for the Yankees since 1978, and their 23rd overall.

**Hong Kong** was a British colony on the brink of great change in 1997. Great Britain's lease on Hong Kong expired on July 1, 1997, and the Chinese reclaimed the island. After 100 years of British rule, British administration and jurisdiction over Hong Kong ended, and it became a Special Administrative Region of the People's Republic of China.

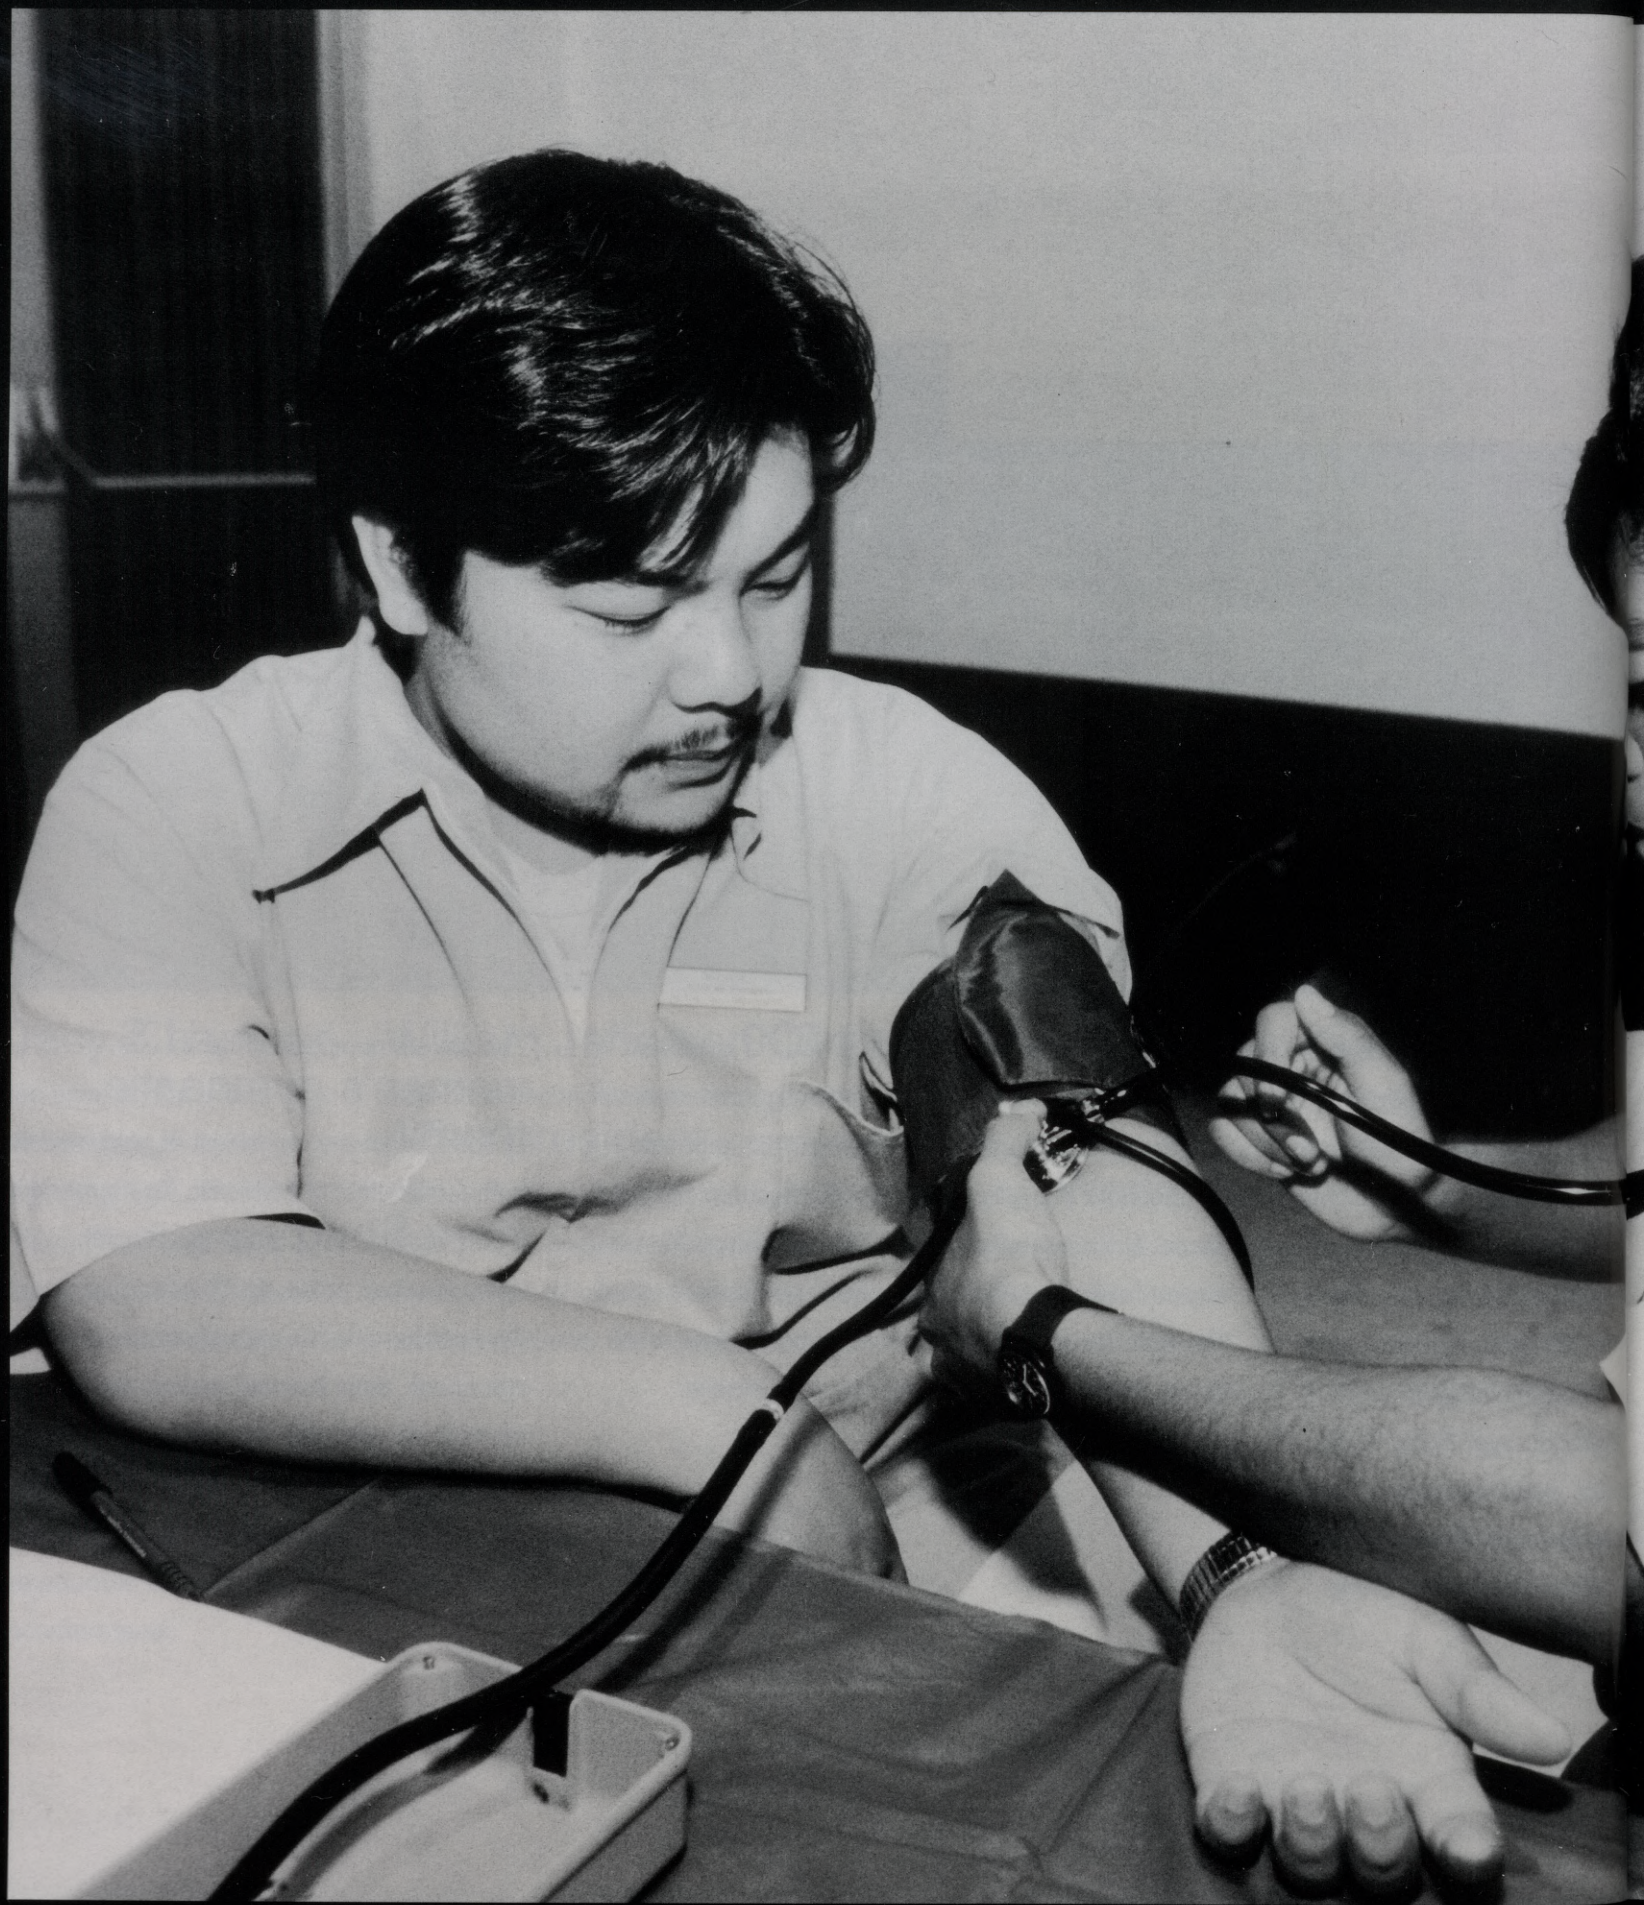

Months after **TWA Flight 800** exploded in mid-air in the summer of 1996, investigators were still searching for a cause. The Boeing 747 jumbo jet plunged into the Atlantic ocean off the coast of Long Island, N.Y., just minutes after taking off from Kennedy Airport for Paris. All 230 people on board were killed. The theories ranged from a mechanical failure to a bomb, from an exploded fuel tank to a missile.

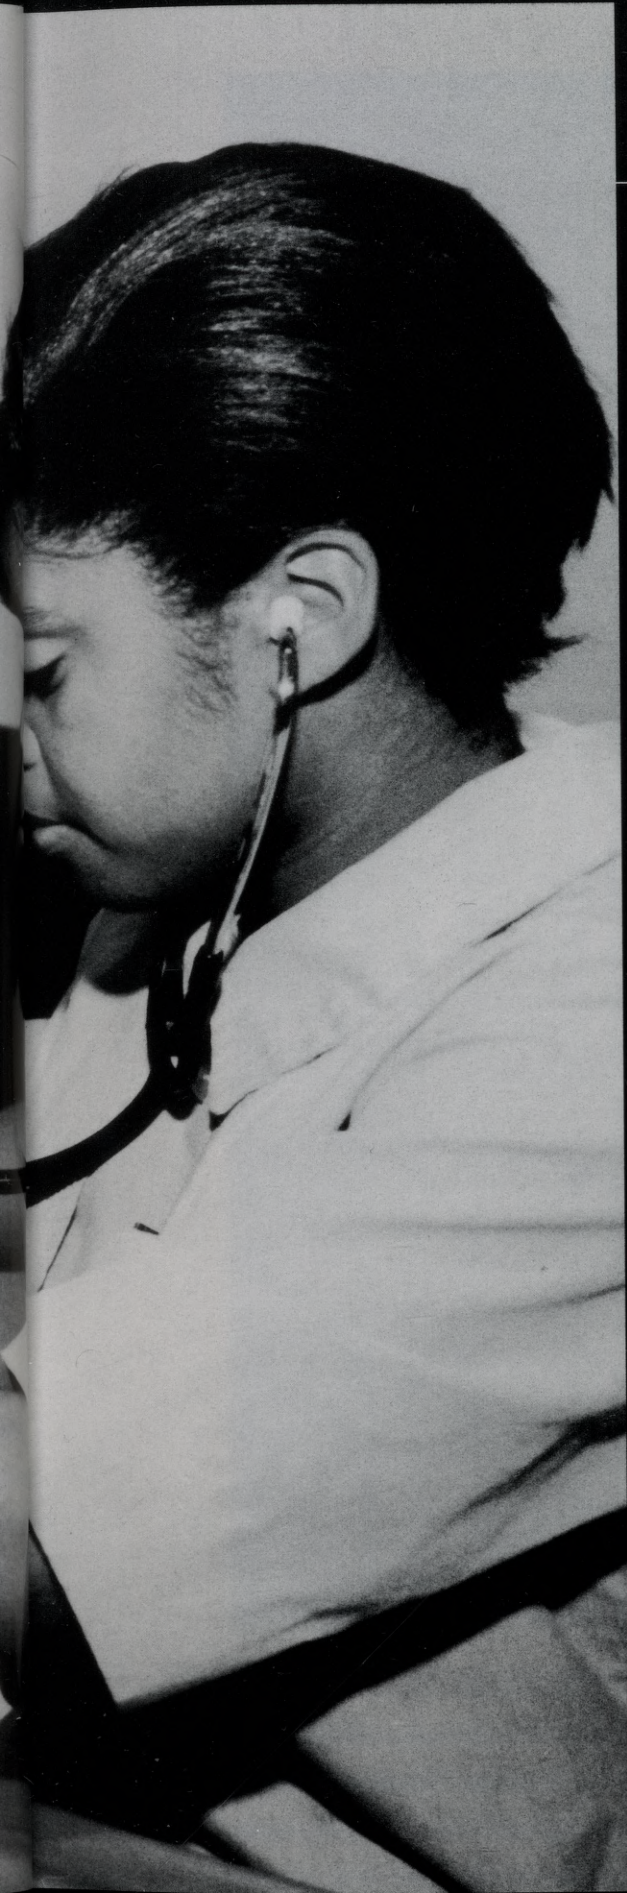

The seven members of the **U.S. women's gymnastic team** won the unlikely of gold medals in the unlikely of fashions. Team member **Kerri Strug** made the clinching vault on a bad ankle, and became an Olympic heroine the instant she landed. Her coach, Bela Karolyi, carried her to the stand to be awarded the medal.

VERY REVEREND THOMAS R. PETERSON, O.P.  
CHANCELLOR

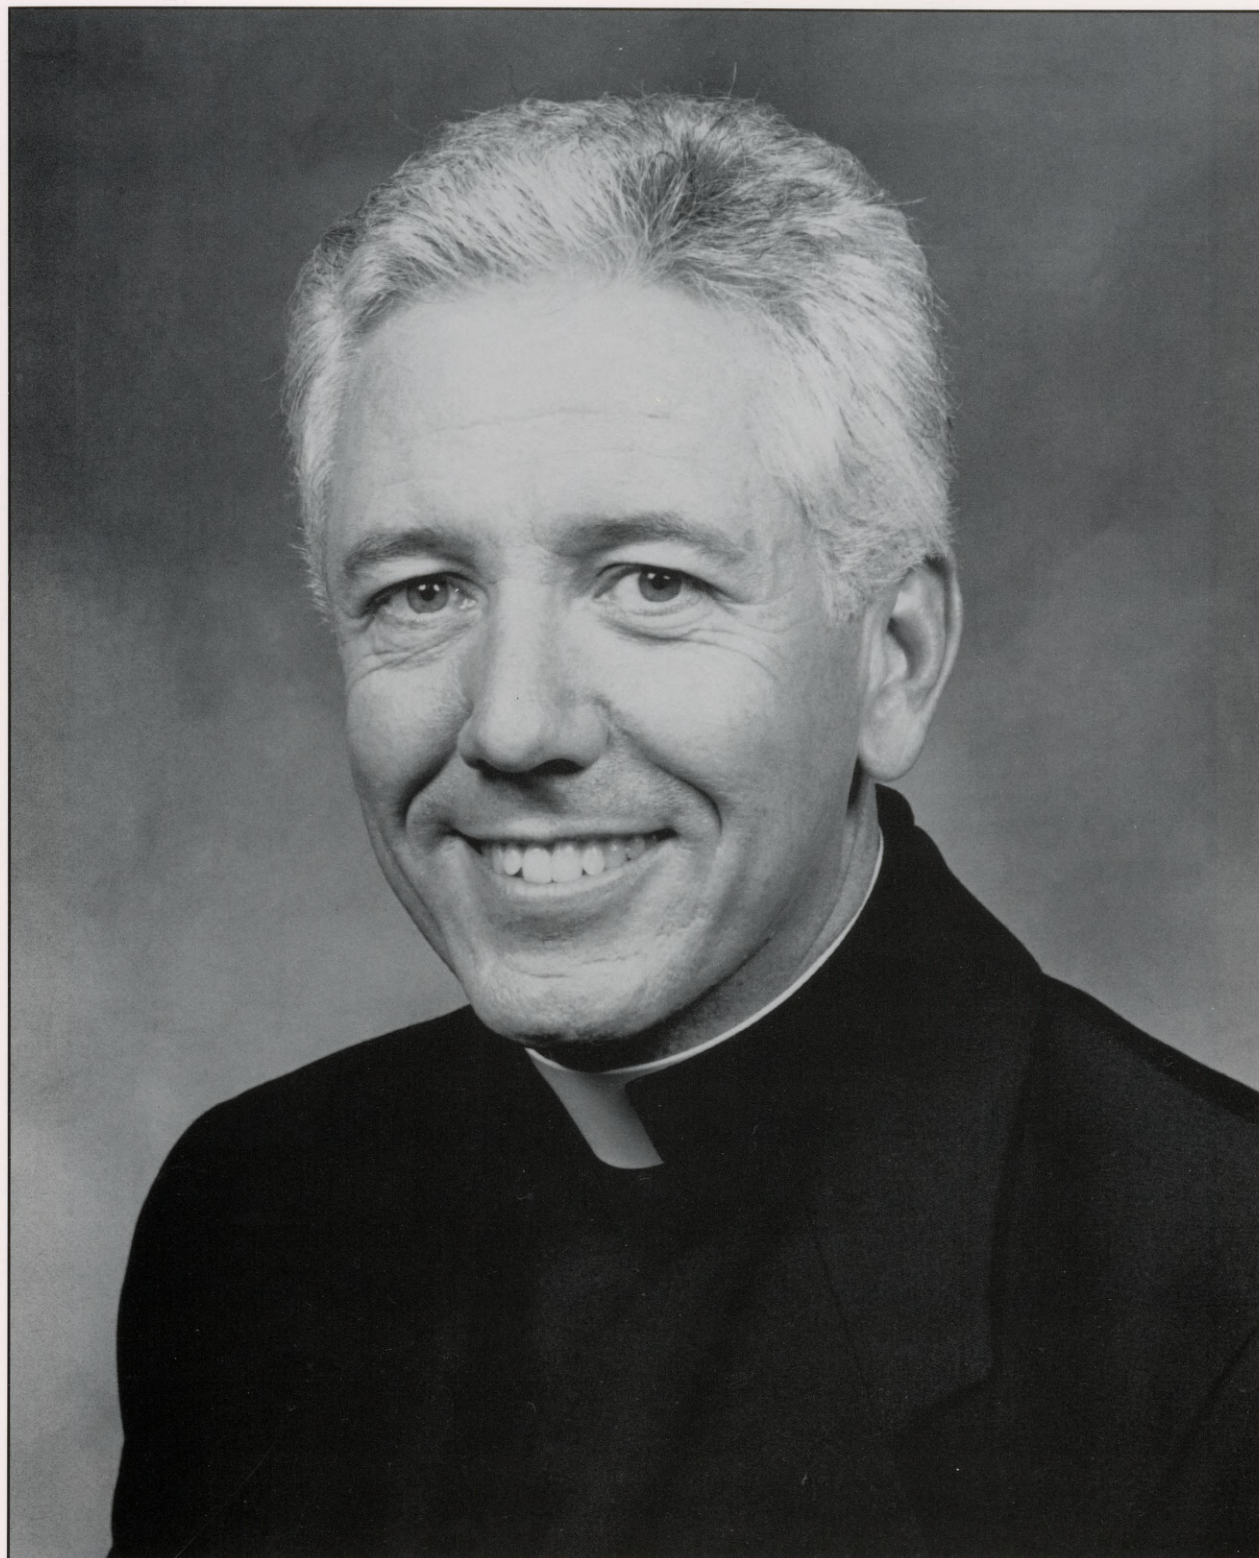

The years spent at Seton Hall University are meant to provide an opportunity to stand in judgment over the past, to monitor creatively the formation of the present and to plan wisely the evolution of our future. These years coalesce into a short, fleeting era of discovery in which we learn surprising and wondrous things about our own identity and about the people, the times and the tides of fortune that goad us on in determining whom we are to become. Most of all, these years are meant to teach us how truly to be humane and how to make God's work part of our own divine heritage.

When I walk into Walsh Library through the rotunda, I often read one of the biblical quotations or inspirational sayings chiseled in the stone pillars. My favorite is Mother Teresa's *THE FRUIT OF LOVE IS SERVICE*. I read this and think of the College of Education and Human SERVICES. Service to others through careers in education should be the motto for those who are graduating from our outstanding Teacher Education Program. Like Mother Elizabeth Ann Seton, a dedicated teacher, our great teaching tradition continues through our graduates.

To the ROTC class of 1997: You are prepared and qualified to take up the challenges that lie ahead. You should be proud of your accomplishments thus far, and confident in your abilities. I wish you all success and Godspeed.

Knowledge is fine, but a Catholic university is a place of wisdom, and wisdom is far more important than mere knowledge. If you are more aware of your place in God's heart and of the sacrifice of Christ, then you have succeeded. Now the test of quality is the degree to which you put your gifts at the service of others.

# COLOPHON

The 1997 *Galleon* Yearbook of Seton Hall University, Volume 73, was printed by Jostens Printing and Publishing Division located in Winston-Salem, North Carolina. The *Galleon* was designed using Jostens' Yeartech desktop publishing program and Aldus Pagemaker 5.0

### •Printing

The 320 pages were printed using offset lithography on 90 pound Eloquence Gloss. Black and white photos were individually reproduced using 175-line screens and flatbed scanner enhancement. Process color pages were printed by Jostens from MSTC prints taken by the *Galleon* staff and DaVor Photo, Inc., located in Bensalem, Pennsylvania. Fugi and Kodak film was used, and all photography processing was done by DaVor Photo, Inc. Gloss and matte varnishes were used in signatures one, two and 20.

### •Art Work

The cover was designed by Maura Dean, Melissa Fornarotto, Jostens artist Krista Keller and Jerry Salomone at Jostens' State College, Pennsylvania, location.

### •Photography

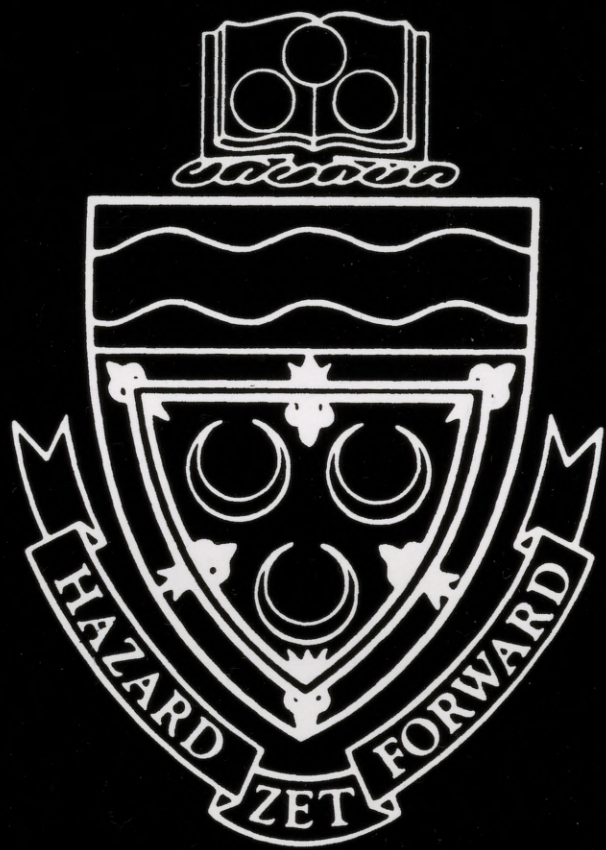

Senior Portraits, Sports Photography and *Who's Who* photos were taken by DaVor. The black and white photos in the *People and Events* subsection were purchased from RM Photo Service. All candid photography was taken by the *Galleon* staff, DaVor and Steve Smith.
